

I am opposed to LPFM radio stations due to the fact that they could displace stations such as K-Love radio. I feel that they will not be properly regulated (almost impossible) and not be in the public's best interest.

KLove and other nationally syndicated broadcasts are well regulated and provide services in the best interest of the public. I am not opposed to small radio stations, but the LPFM in many cases will provide a public platform for issues/language/behaviors that are not in the best interest of the public.

Thank you,

Shawn Shreves
